A susurrant of whispers fills the courtroom as you step forward. To your left are your fellow thralls, heads bowed. To your right, the gryphon keepers stare at you with open hostility.

At the center of the room, the judges wait, their gryphons resting at their feet. They watch you, awaiting your approach.

- I make a point of waving at a few keepers. That'll have everyone guessing.
- I'll keep my head down. If I acknowledge anyone, I could get them in trouble.
- I can't let them know what I'm thinking. I'll keep my face expressionless.

## About This Game

Steal and raise a baby war gryphon! Will you fight dragons together to save the empire, or defy the empire and lead your people to freedom?

*Runt of the Litter* is a 150,000 word interactive fantasy novel by Kelly Sandoval, where your choices control the story. It's entirely text-based—without graphics or sound effects—and fueled by the vast, unstoppable power of your imagination.

The gryphon keepers hold all the power in the Empire of Vaengrea. They make the laws, patrol the borders, and only give gryphon eggs to their chosen heirs. As a poor stable hand, a "thrall," you know you'll never have a chance to prove yourself.

But then, you find the egg. Small, neglected, nudged out of the nest by a disapproving mother. But you can feel warmth growing inside.

Now your gryphon is in terrible danger, both from the other gryphon keepers and from a deadly plague that's wiping out the Empire's gryphons. Can you keep your gryphon safe? Where will you hide your new hatchling? Are you skilled enough to hunt its food or clever enough to steal it? Which of the gryphon keepers can you trust? How will you shape the young gryphon's mind?

Wyrms invade from the north on their fire-breathing dragons, the natural enemy of the gryphons. Will you and your

---

gryphon fight in the war, seizing your place among the elite? Or will you defy the empire and lead your fellow thralls to revolution?

Can you keep a runt gryphon safe with the whole world against you? The life of your gryphon, and the fate of an empire, is in your hands.

- Play as any gender and as gay, straight, or asexual
- Choose from a variety of unusual gryphon breeds
- Raise your gryphon with a gentle hand or demand obedience
- Find romance among your fellow thralls or steal the heart of a gryphon keeper
- Rise to the rank of gryphon keeper or lead your fellow thralls to freedom
- Battle fire-breathing wyrms to protect your empire
- Find a cure for the devastating gryphon plague

"You think you're the equal of a gryphon keeper?" Nistarii asks, glaring at you. "How does your beast measure up against a Vaengren gryphon?"

You glance toward the councilors' gryphons. If they want to take Fragilewind's measure, those are the gryphons to measure him against.

- "Let Fragilewind meet your gryphon, Councilor Inte. You can judge if they're matched in charm."
- "Let Fragilewind meet your gryphon, Councilor Janil. I think you'll find him of equal dignity."
- "Set Fragilewind against your gryphon, Councilor Nistarii. Then you'll see what he's made of."

You're almost to the contested lands when you notice a smudge of gray against the sky. You follow the smoke to the burnt out husk of a village, destroyed by wurm riders. It's worse than you've heard. The stories never mentioned the smell of rotten meat and ash, the way it coats your throat every breath you take.

From outside, it seems like no one is left alive. You see no movement, hear nothing but birdsong and Littleclaw's breath.

- If any villagers survived, I have to help them.
- I'll search for supplies, there may be something useful.
- There may have been a battle. I have to look for injured soldiers.

"Ipsu will die if we don't get to him," Taisiir says. "We need you and Sunfeather."

"We need you more." Neeris locks eyes with you. "There's a wyrm on our lands, and it's about to eat a gryphon and his rider. You have a duty."

You stare back, weighing your choices. Is your first duty to your fellow thralls, or to the Empire and Sunfeather's kin?

No matter what happens to Ipsu, my duty is to the Empire.

If we divide our efforts maybe we can save everyone.

My loyalty is to my fellow thralls.

Decent choices game. There's good world building and the lore is nicely woven into the text without feeling forced. I liked the plot, though there could have been more meat on it, it also feel like it could've been longer, like the Epilogue could've been another full game.. A few minor problems, such as a bit of failure to keep the continuity of pronouns. I had a female griffon, and, while for the most part it followed without problem, more than a few times I'd find a line such as "You scratch his beak the way she likes."

But, barring that, there's very little to complain about.

The choices are interesting, the story is wonderful, and the writing is lovely.

There was a bug that prevented progression, but has since been patched out, and I've encountered no other such problems.

I've had a great deal of fun with this.

Recommended.. Before starting the game.(To myself) This looks like a fun game, i get to raise my own little gryphon.

(10Minutes into the game) I want to kill all these Fledglings.

(After getting an egg) This is mine, there is many like it but this is mine!

(After hatching) Omg Omg Omg Omg. SO ADDORABLE, You shall be called Stormspark, my Precious.

(Roughly 15 minutes later) I don't need to highborn bastards, just me and Stormspark together forever.

(Last 2 minutes) I died sacrificing myself to protect Stormspark and my Lover from a Drake.

(End note) I now have more emotional trauma never knowing if Stormspark or my lover got away..... I am sad now :(

9.5/10 Highly recomended. \*Before starting the game.(To myself) This looks like a fun game, i get to raise my own little gryphon.

9.5V10 Highly recomended. Before you read on, I want to warn you that this review is quite rambly.

When I got an email from chioce of games notifying me that there was a new game, I immidiatly bought it.

I always love these games and this one was definitely not an exeption.

I even thing this one was one of the better ones I've played.

First of, I think the society you find yourself in in this game is very interesing. From the start you have a clear picture of what is

---

going on. The society is completely centered around the gryphons. This gives every action surrounding them feel important.

Your own gryphon is very adorable and greatly written. It felt like it was a real creature.

I also loved all the characters in the game. The relationships you form with them feel natural and not forced at all. They all have their own opinions that they stand by and will defend.

They all have very unique names, but they all have a certain feel to them making the society even more believable.

What I found very interesting is that some characters were neither male nor female and had ze/zir pronouns.

I had never seen them used before and had to warm up to them a little. They felt alien and not very appropriate to the fantasy setting. After playing for a while this went away though. It actually says a lot about this society, that these kinds of things are accepted by all. It made me want to learn even more about it.

The choices in the game all seem to make a difference. I found this game a lot more difficult than other choice of games I've played. I watched the stat changes closely, and many times the changes that happened were unforeseen by me. They weren't bad though! When I thought about them afterwards I could see why that stat changed.

I loved basically everything about this game. I would definitely recommend to anyone who like these kinds of choice based games.. One of the better Choice Of games to come out in a while. Very imaginative and well written, if a little sparse in sections. The gryphons are wonderful though, and raising one was a pleasure. Just an enjoyable read all around.

In terms of personality everyone's Griffin is exactly the same from the game's beginning to its abrupt climatic ending which comes at a time that feels like the stories halfway point.

Minor spoiler. During the course of the game I became the hero of the universe which I really shouldn't be considered much of a spoiler. But the mission I went on to achieve my champion of the universe title is so insanely simple that I don't know why some other random NPC hadn't already done it. It kind of felt like getting a parade for brushing my teeth. But as I already said in the first sentence. It's a very anti climatic game.. I've always had mixed feelings about the Choice of Games collection. A lot of them are pretty iffy, and this one is especially. I did 2 paths and then decided to stop since it got increasingly tedious. It just feels like nothing really happens and nothing really matters. The characters feel hollow, the stats feel pointless and I couldn't care less about my Gryphon, either. All in all this is one of the weaker games they're offering.

At the very least I'll say it's not as obnoxiously in your face with its political beliefs and agendas as most of these games can be.. this game is very cute and fun. i love the idea of raising something and caring for it, depending on the choices you make regarding your gryphon it will change its personality and the ending which cool. the characters are all amazing except for that one keeper >>. its a little short for me but is definitely worth it as are all their other games. i hope they make a sequel to this or something ^^ . If your expecting to personally lead a thrall revolution or live the life of an empire gryphon keeper like I thought, dont. The game ends when you choose either of those and all you get is a few pages describing what happens to everyone afterwards. The game wasnt bad persay it was just dissapointing that it ends before what I thought would be the best part.. Well written and engaging, but very short. I would have liked more chances to interact with the other characters and learn about the world, and couldn't help wishing that I could have played out the events covered in the epilogue..
